DISCLOSURE:

This material is provided for limited purposes. It is not intended as an offer or solicitation for the purchase or sale of any financial instrument, or any Cedar Capital, LLC or affiliate ("Cedar Capital") product or strategy. Any such offer will be made via investment management or other agreement. References to specific asset classes and financial markets are for illustrative purposes only and are not intended to be, and should not be interpreted as, recommendations or investment advice. This material does not take into account any investor's particular investment objectives, strategies, tax status, or investment horizon. Cedar Capital cannot guarantee the accuracy or completeness of certain statements or data contained in the publication as they may be obtained from third-parties.

Past performance is no guarantee of future results. The information provided is for illustrative purposes only and is not representative of the performance of any particular investment. It is not possible to invest directly in an index. Indexes are unmanaged and index returns do not reflect fees, expenses, or sales charges. Indexes were chosen that Cedar Capital deems representative of broad traditional and alternative asset classes.

Certain of the index data presented contain performance prior to the index launch date. All information for an index prior to its launch date is backtested, based on the methodology that was in effect on the launch date. Backtested performance, which is hypothetical and not actual performance, is subject to inherent limitations because it reflects application of an index methodology and selection of index constituents in hindsight. Based on publicly available information, Cedar Capital has determined that the following indexes contain pre-inception index data: the Thomson Reuters Venture Capital Index, launched October 2012; the Thomson Reuters Private Equity Buyout Index, launched December 2013; the S&P Global Natural Resources Index, launched May 2008; and the Dow Jones Commodity Index, launched October 2011. Other indexes may also contain pre-inception index data.

All investment strategies have the potential for profit or loss. Different types of investments involve varying degrees of risk, and there can be no assurance that any specific investment strategy will either be suitable or profitable for an investor's portfolio.

Index Definitions

All indexes are total return unless otherwise noted. Performance for total return indexes reflects the reinvestment of dividends and capital gains.

Barclays U.S. Aggregate Bond Index – an index designed to provide a measure of the performance of the U.S. investment grade bond market, which includes investment grade U.S. Government bonds, investment grade corporate bonds, mortgage pass through-securities and asset-backed securities that are publicly offered for sale in the United States. **HFRI Fund of Funds Composite Index** – a broad market measure of the hedge fund industry, which includes the performance of over 500 hedge fund-of-funds. **MSCI ACWI Index** - an index which captures large and mid cap representation across 23 developed and emerging market countries. **NASDAQ Composite Index** – a market-capitalization weighted index of the more than 3,000 common equities listed on the NASDAQ stock exchange. The composition of the NASDAQ Composite is heavily weighted towards information technology companies. **NCREIF Property Index** – a quarterly time series composite total rate of return measure of investment performance of a very large pool of individual commercial real estate properties acquired in the private market for investment purposes only. **S&P 500 Index** – a capitalization-weighted index of 500 stocks designed to measure performance of the broad domestic economy through changes in the aggregate market value of 500 stocks representing all major industries. **S&P Global Natural Resources Index** – an index which included 90 of the largest publicly traded companies in natural resources and commodities businesses that meet specific investability requirements, offering investors diversified and investable equity exposure across three primary commodity-related sectors: agribusiness, energy, and metals and mining. **Thomson Reuters Private Equity Buyout Index** – the Thomson Reuters Private Equity Buyout Index ("TR PE Buyout Index") seeks to replicate the performance of the Thomson Reuters Private Equity Buyout Research Index ("TR PE Buyout Research Index") using liquid public securities across the sectors in which U.S. private equity invests. **Thomson Reuters Venture Capital Index** – the Thomson Reuters Venture Capital Index ("TR VC Index") seeks to replicate the performance of the Thomson Reuters Venture Capital Research Index ("TR VC Research Index") using liquid public securities across the sectors in which U.S. venture capital invests.
